

A Few of Many
BUSINESS APPLICATIONS

AGRICULTURAL

Farmers, grove owners, horticulturists and lawn care specialists enthusiastically recommend 1st EnviroSafety products for increased growth and yield.

Mr. James Little, California orange grove owner applied small amounts of **Organic Cleaner/Degreaser** to his fertilizer and reported a 20% increase in crop yield.

ANTIQU RESTORATION

To make dirty old furniture look new again, spray polished wood, leather or vinyl with **“Wood and Leather Protector”** and buff lightly. The renewal will amaze you and add value to the furniture.

For dried grease, dirt, soil, scum, etc., spray with diluted **Organic Cleaner/Degreaser**, let dwell a few moments, then rinse or wipe away dirt with a wet cloth.

APPLIANCES-USED

Clean dirt, grease, grime, oil, soil and organic based stains from old appliances, spray generously with **Organic Cleaner/Degreaser**. For unusually tough challenges, use hot water, agitate and allow time to penetrate, then rinse or wipe away the soil with a wet rag.

To remove hard baked food from oven grills, warm the oven to 100 degrees, turn it off and spray generously with **Military Strength, Organic Cleaner/Degreaser** and allow 10-20 minutes for the solution to penetrate, then wipe away the problem with a rough rag or pad. In extreme cases, a 2nd application may be beneficial.

To easily restore the “new” shine, adding additional value to old appliances, spray lightly with 1st EnviroSafety’s ***Stay Clean! Glass Cleaner*** and buff lightly with a clean cloth.

AUTO DETAILING

Avoid messy and expensive water and suds. Clean and shine any vehicle, anywhere. Average time needed for the average vehicle: about six minutes. Just spray on and wipe away ***Vehicle Waterless & Shine***.

To clean tires, hubs, brake dust, etc., spray with 1st EnviroSafety’s **Military Strength, Organic Cleaner & Degreaser**, let dwell while cleaning the rest of the car, then spray off with a stream of water or rub lightly with a sponge.

To restore vinyl rooftop, clean with **Organic Cleaners/Degreaser**, and then spray with **Wood & Leather Protector**.

To restore interior leather, vinyl, dashboards, etc., spray **Wood & Leather Protector** on a clean cloth or directly on the surface. Buff lightly to restore the new look and feel.

To degrease and clean the grimeiest engine, spray thoroughly with **Military Strength Cleaner/ Degreaser**. Let dwell, and then spray away the grime with a pressure spray. Restores the “like new” appearance and adds value to the vehicle.

Improve sales appeal with sparkling windshields and windows. To clean and make glass sparkle, spray lightly with **Sparkling Glass**. Buff lightly with clean dry cloth or paper towel.

AUTOMOTIVE REPAIR

To quickly and safely degrease metal parts without personal exposure to hazardous chemicals and noxious fumes, dip the parts into a warm solution of **Military Strength Organic Cleaner/Degreaser**. Remove, dry and use or store.

BAKING

To quickly remove grease and oil from ovens, cooking utensils, floors, walls, etc., without exposure to hazardous chemicals and noxious fumes, apply 1st EnviroSafety's USDA approved **ECCO Commercial All Purpose Cleaner**.

To quickly and easily wash away dirt, soil and pesticides, wash fruits and vegetables with USDA approved **ECCO Commercial All Purpose Cleaner**.

To easily clean glass, windows, mirrors, appliances, etc., leaving a pleasant sparkle, spray lightly with **Sparkling Glass** and buff with a clean, dry cloth. Glass cleaned with *Stay Clean!*, stays cleaner longer. Regular use gives a clean, pleasant appearance and protects appliance surfaces.

For the cleanest, most sanitary facility, have employee's wash away dirt and germs with **Organic Hand Wash**.

BEAUTY SALONS

Clients avoid salons with strong chemical odors. Eliminate odors by cleaning floors, walls, countertops and other surfaces and instruments with **Organic Cleaner/Degreaser**.

To keep mirrors, windows, other glass and countertops sparkling clean and attractive, spray lightly with *Stay Clean!* **Glass cleaner** and buff lightly with a clean cloth.

To avoid possible absorption of unhealthy chemicals via the skin, and to keep hands clean, odor-free and healthy, wash often with **Organic Hand Wash**.

BOAT BUILDERS

For resin removal from hands, brushes, rollers, floors, etc, replace hazardous Acetones with safer, healthier, non-toxic, biodegradable **Military Strength Cleaner/Degreaser**. To safely clean and shine acrylic, glass, fiberglass, stainless steel, spray with non-toxic *Stay Clean!* **Glass Cleaner** and buff lightly.

To clean, shine and protect against salt, spray vinyl, polished wood and stainless steel with Colloidal **Wood & Leather Protector**.

“With safety and environmental concerns becoming more important, 1st EnviroSafety products are the wisest choice a boat builder can make. These three products are cheaper, safer and highly effective. My employees prefer them because they do not irritate skin nor emit hazardous fumes. They are safer and readily biodegradable, so they do not interest the EPA.” Jeff Steele, President, Diversified Marine, Inc.

BOAT DEALERS & DETAILERS

To easily and safely clean and degrease engine parts, used boats, algae, mechanic’s hands, clothes, showroom floors, bathrooms, etc., use **Organic Cleaner/Degreaser**.

To create a “showroom glisten,” to safely clean and shine acrylic, glass, fiberglass and stainless steel, spray with non-toxic **Stay Clean! Glass Cleaner** and buff lightly.

Make old boats look new and fresh. To clean, shine, and protect against salt, spray vinyl, polished wood and stainless steel with Colloidal **Wood & Leather Protector**.

BUTCHER SHOPS

To easily and safely remove blood, grease and odors and to clean hands, cutting boards, etc, use USDA approved **ECCO Commercial All Purpose Cleaner/Degreaser**.

Keep display case glass and polished surfaces sparkling clean with **Stay Clean! Glass Cleaner**.

CONSTRUCTION CLEAN-UP

Make windows, mirrors and appliances and polished surfaces sparkle with cleanliness and sales appeal by spraying with **Stay Clean! Glass cleaner**.

To remove the toughest dirt, soil and grease from new and old construction, walls, bricks, concrete, tools, etc., apply **Military Strength Cleaner/Degreaser**, allow a few moments to soak in, then rinse or wipe away with a clean, wet cloth.

To give a professional image to work trucks and personal vehicles, spray generously with **Waterless Vehicle Wash & Shine** and wipe with a clean, dry clothe.

For clean, germ-free hands when working on finished areas, at lunch, and after work, pump a dab or so of 1st EnviroSafety **Organic Hand Cleaner** from the bottle, rub hands together, and then wipe away with a rag or paper towel.

DAY CARE

To safely clean crayon and marker marks from hard surfaces, without noxious odors or fumes, and to remove dirt, soil, scruff-marks, etc from floors, kitchen countertops and bath areas, apply USDA approved **Organic Cleaner/degreaser**.

Wash away dirt, food, oil and grease and germs from dishes, cups, glasses, etc with 1st EnviroSafety **Organic Dish Liquid**.

Make windows, mirrors, appliances and polished surfaces sparkle with cleanliness by spraying with *Stay Clean! Glass cleaner.*

Wash away toxic insecticides and pesticides from fruits and vegetables with 1st EnviroSafety's non-toxic **Veggie Wash.**

For clean, odor-free carpets, use 1st EnviroSafety's sensational new **Professional Carpet #123.** Carpet #123 works in all carpet cleaning machines. Safely removes blood, dirt, oil, grease, feces, urine, odors, grease and crayon marks, etc. For exceptionally soiled areas, spray generously with 1st EnviroSafety's plant-based Dirt Delete, let dwell and then pat, (do not wipe) the stain up.

FARM ANIMALS

Eliminate offensive odors by generously spraying animals, stables, stalls, runs and manure storage areas with 1st EnviroSafety's **Military Strength, Organic Cleaner/Degreaser.**

Reduce or eliminate fly and insect infestations by generously spraying animals, stalls, runs and manure storage areas with 1st EnviroSafety's **Military Strength, Organic Cleaner/Degreaser.**

Owners report remarkable rapid healing of wire cuts and abrasions when cleaned with 1st EnviroSafety's **Organic Cleaner/Degreaser.**

Use 1st EnviroSafety's **Military Strength, Organic Cleaner/Degreaser** to clean saddles, harnesses, etc. Restore the like-new shine with First EnviroSafety's **Wood & Leather protector.**

FLOOR CARE

To clean light or tough dirt, grease, oil or soil, feces, urine or odor from any hard surface floor, (wood, tile, linoleum, etc..) apply 1st EnviroSafety **Dirt Delete**, either directly or in water. Agitate or mop with a damp mop. Easily dissolves all tough organic based stains. For carpet care, use 1st EnviroSafety's sensational new Professional **Carpet #123.**

FOOD SERVICE

Loosen grease traps while cleaning away dirt; soil, grime, oil and germs from exhausts and any hard surface with USDA approved **ECCO Commercial Cleaner.**

Wash away dirt, food, oil and grease and germs from dishes, cups, glasses, etc with 1st EnviroSafety **ECCO Commercial Cleaner.**

Wash away toxic insecticides and pesticides from fruits and vegetables with 1st EnviroSafety's non-toxic **Veggie Wash.**

This product was sold on Home Shopping Network, (HSN) as "Joy's Miracle Clean. " They had it tested by Good Housekeeping to determine whether it removed oily toxic insecticides. Per Joy Mangano, it was the only veggie wash given the **Good**

Housekeeping Seal of Approval that *actually removed toxic pesticides*. Every concerned cook should use it on all raw foods.

To keep mirrors, windows, other glass and countertops sparkling clean and attractive, spray lightly with *Stay Clean! Glass cleaner* and buff lightly with a clean cloth. Cleans and shines polished bar tops, countertops and tabletops.

To avoid possible absorption of unhealthy chemicals via the skin, and to keep hands clean, odor-free and healthy, have all employees wash often with 1st EnviroSafety's non-irritating **Hand Cleaner**.

FURNITURE RESTORATION

Make dirty old furniture glisten like new again. Clean and polish leather, vinyl and polished wood with 1st EnviroSafety's **Wood & Leather Polish**. Another benefit is that a slight anti-static residue repels dust, reducing the need for frequent dusting.

To remove normal dirt, oil, grease, grime and soil, from appliances and wood, metal and fiberglass furniture, apply a light application of 1st EnviroSafety's **Organic Cleaner/Degreaser**.

GLASS

Quickly and easily cleans glass, mirrors, jewelry, stainless steel, polished bar and tabletops with 1st EnviroSafety's *Stay Clean! Glass Cleaner*. It also cleans and shines kitchen and laundry appliances and countertops. An invisible anti-static residue repels additional soil accumulation, reducing the need for future cleanings.

GREASE TRAPS

To dissolve grease in grease traps, drain lines, sewer lines, and, even sewer plant holding tanks, add 1st EnviroSafety's **Military Strength, Organic Cleaner/Degreaser** to your traps and lines. Helps fluids to easily flow through sewer lines and reduces the need for sewer line clean out.

Note:

Regular use of **Military Strength, Organic Cleaner/Degreaser** retards grease accumulation and consequent sewer drain blockages.

"Because residents poured cooking greases down the drain lines, I frequently had to pay Rotor Rooter to unclog the sewer lines in a mobile home park. After introducing 1st EnviroSafety cleaners, the sewer lines remained clear. " Bill McNabb, Property Manager

GROCERY

Safely and quickly clean tools and equipment, countertops, display cases, floors, walls with 1st EnviroSafety's USDA approved **ECCO Commercial All Purpose Cleaner**. Easily washes away blood, dirt, oils, grease, scum, organic stains, and odors. It is organic and readily biodegradable, so it is conveniently disposable down sewer drains.

Keep glass displays, countertops and machines, including computers and cash registers sparkling clean and shiny with a light spray of *Stay Clean! Glass Cleaner*. Just spray it on and wipe it off with a clean cloth or paper towel. An invisible anti-static charge retards soil accumulation, reducing cleaning labor time and costs.

Wash away toxic insecticides and pesticides from fruits and vegetables with 1st EnviroSafety's **organic Veggie Wash**.

This product was privately labeled and sold on Home Shopping Network, (HSN) as "Joy's Miracle Clean." They had it tested by Good Housekeeping to determine whether it removed toxic insecticides. Per Joy Mangano, it was the only veggie wash given the **Good Housekeeping Seal of Approval** that *actually removed toxic pesticides*.

HANDY MAN

Your personal health is essential. Replace your toxic cleaning chemicals with 1st EnviroSafety's safer, non-fuming organic cleaners and degreasers. Only a few products can replace all your unhealthy cleaning chemicals.

For your personal tool cleaning and degreasing challenges and customer services, switch to healthier, non-fuming **Military Strength, Organic Cleaner/Degreaser**.

For cleaning windows, mirrors and polished surfaces, use *Stay Clean! Glass Cleaner*.

For carpet cleaning, use Professional **Carpet #123** and **Dirt Delete**.

HORSE STABLES

Horse owners and trainers are seeking non-toxic solutions to improving comfort for their horses. They reported that cleaning horses and stables with 1st EnviroSafety's **Organic Cleaner/Degreaser** reduced odors and the insect and fly population. The cleaner, fresher smelling environment appeared to improve the comfort level of the horses.

To give a healthy shine to a horse's coat, bathe with the **Organic Cleaner/Degreaser**, and then spray lightly with *Stay Clean! Glass Cleaner* and wipe with a soft clean cloth. The soft luster provides a pleasing, healthy appearance.

HOSPITALITY

For nearly every cleaning task, replace all your unhealthy cleaners with 1st EnviroSafety's **Organic Cleaner/Degreaser**. It is blended from extracts from natural plants, has no noxious fumes, is hypoallergenic, does not irritate normal skin, and wins every organic cleaning challenge.

It is cheap and simple to use. It allows the professional to advertise "healthier, ecologically safe" services and enjoy improved business growth.

For glass, mirrors, polished countertops, etc, spray lightly with 1st EnviroSafety's healthier *Stay Clean! Glass Cleaner*. It emits no nasal or lung damaging ammonia or

alcohol fumes, yet quickly cleans glass to a sparkle. It contains an invisible anti-static charge that repels dirt accumulation, so the surface stays cleaner longer, saving future labor time, energy and expense.

For cleaning and dusting leather, vinyl or polished wood sofas, chairs, tables, etc, apply 1st EnviroSafety's **Wood & Leather Protector**. It cleans and restores and repels additional dust accumulation. Dr. Ann cleaned silk plants and sprayed them with this product in October 1997. They are still dust-free!

For the ultimate in carpet and rug cleaning, use 1st EnviroSafety's sensational new **Carpet #123** and its' companion, **Dirt Delete**. Follow the simple instruction on the labels.

For healthier laundry, add one ounce of 1st EnviroSafety's organic, low suds, phosphate-free **Laundry Solution** and add a handful of baking soda for whiteness. Clothes will smell fresh and clean, contain no toxic residues and need no fabric softener.

It is vitally important that your business vehicle look professional at all times. To quickly and easily wash and shine it anywhere *without water*, just spray generously with 1st EnviroSafety's **Waterless Vehicle Wash & Shine**, then wipe it off with a clean, soft cloth.

HOT TUBS

It emits no nasal or lung damaging ammonia or alcohol fumes, yet quickly cleans glass to a sparkle. It contains an invisible anti-static charge that repels graffiti and dirt accumulation, so the surface stays cleaner longer, saving future labor time, energy and expense.

To reduce the need for frequent cleaning and dusting leather, vinyl or polished wood sofas, chairs, tables, etc, apply 1st EnviroSafety’s **Wood & Leather Protector**. It cleans and restores the original luster, PLUS, it repels additional dust accumulation. Dr. Ann Tidwell, President, 1st EnviroSafety, Inc., sprayed her silk plants with this product in October 1996. They are still dust-free!

It leaves an invisible residue on smooth surfaces that discourage graffiti.

SEAFOOD ODOR CONTROL

To quickly, easily and safely wash away blood, protein and odor causing debris, spray generously with 1st EnviroSafety’s **USDA Approved ECCO Commercial All Purpose Cleaner** and rinse or wipe away with a wet rag.

Also, use the same product to clean and degrease every hard surface in the facility.

SEWER LINES

Soap, hot grease and oil conceal when cooled in a sewer drain. It can catch passing hairs, paper and other solid matter, causing sewer clogs that require expensive clean-outs. Keep sewer lines draining free and clear by using 1st EnviroSafety cleaning solutions for routine cleaning activities. In event of a sewer clog, use Military Strength Cleaner/Degreaser to dissolve grease.

SPAS

Keep your spa and hot tub water and spa surfaces sparkling clean and keep your tub pump clean by adding two (2) ounces per gallon of non-toxic **Carpet #123** to the water.

THRIFT SHOPS

Clean and restore furniture, appliances, tools and clothes with 1st EnviroSafety organic cleaning solutions.

To remove dirt and soil, spray generously with 1st EnviroSafety **Organic Cleaner/Degreaser**, dwell and then wipe

Restore the shine and luster to leather and vinyl furniture with 1st EnviroSafety's **Wood & Leather Protector**.

TOOLS, CLEANING

Quickly and easily remove dirt, grease and oil from metal and plastic tools with safer and healthier non-corrosive, non-fuming **Military Strength, Organic Cleaner/Degreaser**. Can be safely used on any tool to which water can be applied. Rinse or wipe away excess with a wet rag.

TRUCKING

Degrease engines, wash wheels and brake hubs with **Military Strength, Organic Cleaner/Degreaser**. Quickly clean and shine exteriors, anywhere, anytime with **Waterless Vehicle Wash & Shine**. Keep windshields clean and clear with **Stay Clean! Glass Cleaner**.

WALLS

Use **Organic Cleaner/Degreaser** to safely wash dirt, grime, fingerprints, etc. from walls, door casing, cabinets and other wood or synthetic surfaces. Prevent additional dirt, grime, fingerprint, and graffiti soiling by spraying with **Wood & Leather Protector**.

WINDOWS

Keep residential and commercial windows sparkling cleaner, longer with **Stay Clean! Glass Cleaner**. For small window areas, spray lightly and wipe with a clean, dry cloth. For larger commercial windows, add about one ounce to two gallons of water and apply with a squeegee. **Stay Clean!** retards additional dirt and grime accumulation, saving future time and labor.

YACHT

To easily and safely clean exteriors and interiors, galleys and heads, degrease engine parts, remove algae, clean hands, clothes, etc., use **Organic Military Strength Cleaner/Degreaser**.

To create a "showroom glisten," to safely clean and shine acrylic, glass, fiberglass and stainless steel, spray with non-toxic **Stay Clean! Glass Cleaner** and buff lightly.

Make old boats look new and fresh. To clean, shine, and protect against salt, spray vinyl, polished wood and stainless steel with colloidal **Wood & Leather Protector**. To shine and protect larger areas, pour the protector into a container, soak some into a soft clean cloth and smoothly wipe it onto the surface. Buff.

To quickly, easily and safely wash away blood and fish and other odors, spray generously with 1st EnviroSafety's **Organic Cleaner/degreaser** and rinse with fresh or salt water or wipe away with a wet rag.

NOTE. The protector leaves a slippery surface. Do not apply where it may be stepped on or present any slipping hazard.
